THE ONE BIG ORGANIZATION.

Dr. Williant Pickens in a recent article through the Associated Negro Press, speaks of the one big organization into which the Negroes of the country should be federated.

The statement, to our midd is a good one and should be given serious consideration by the test thinkers of the race. The one big organization with five or six midden membeds, operating under proper lendership, will remove mountains. We as a group in America couldn't wish for more. The gotenfal strength, power and urbunece of such an organization, would find the lendership of the lendership and disabilities from which we suffer.

Not An Idle Beautiful and so the control of the lendership will recommend the lendership of the lend Not An Idle Dream

we suiter. Not An Idle Dream

The need, the great need of such and organization is so plain
even to the most simple among us will agree. But the one big
one-stout that demands the attention of the best minds is, how can
it be done? If, there a nucleus for such an originization affectly it
existence? If so, what organization is it?

To federate five or six million Negroes into one organization
is far from the impossible. The masses, from Maine be Culffornia,
and from the Lakes to the Gulf, are ready. They are ready six
million strong to unite in a move to free the-models of non-the
yoke of bondary which we are forced to early in the grad of bittertiess of our souls. It is no idle dream to tade of such an organization.

yoke of boidage which we are forced to carry in the gail of bittlertiess of our souls. It is no idle dream to take of such an organization.

A Question of Leadership. Its coasy for us to
declare for the masses that they are ready—yose, teaming millious are ready to murch as it were, to the direct state of the drum.
But what about the backers? Or the declares? Is it
possible to get them together?

We know this would be a hard jely, yet we think it can be
done. To-bessure it will call for sacriface of personal ambition, or
personal gain. It will require the give and take spirit! It
will finem a coming together and, a frank discussion of each one's
trees. It will, mean that we are able to reason dogether.

When we think of the possibility of the one hig organization,
we can't but think of the National Association for the Advancenery of Colored People. The Universal Negro Juprovenent Association and the African-Blood Brotherhoud, all which large
their Peadquarters at New York. And too, we brink of the
Equal Rights Longate of Beston. These tour organizations of the

A NEGRO FOR DEPUTY-COLLECTOR.

Xow that, John S. Leaby has accepted the office of United states Calcuferishin for this District, we would suggest that, as a matter of right and justice he appoint a Negro as cheft deputys in the distribution of State and Pederal patronace, the Secretary of the Calcuferings. When it comes in distribution of patronace, we would sufficiently. When it comes in distribution of patronace, the Secretary of the Calcufering of the C

we hava't even dreamed are possible—so we wouldn't be surprised of we saw during this year plans far under way to federate

like all the time. President'llar ling not excepted. The best way
after all, is the give and take a rid.
